

**AN ANNOUNCEMENT FOR OUR PARTNERS,
EMPLOYEES AND CLIENTS:**

WOMEN'S RESOURCE CENTER CLOSURE

The Women's Resource Center (WRC) - our satellite location at Citadel Mall - is now permanently closed. Previously the Women's Resource Agency, the WRC focused primarily on supporting women of all ages entering or re-entering the workforce through providing programs, services and training in hopes of building meaningful career opportunities and success. As we reflect on our mission to support victims and survivors of domestic violence, sexual assault, stalking and human trafficking, we at TESSA have decided to re-center our efforts to continue to foster a community free of violence. Through this work we have recognized many of our community partners provide complimentary services similar to those of the WRC program. While we hope to continue providing our clients with resources to empower themselves as they begin to re-enter the workforce through facilitating workshops and training, we have compiled a list of community partners who work diligently to provide the best opportunities to those looking for work, skill development and additional employment resources. To see our current donation needs, please visit our website under "Give Help" or give us a call.
